MEDICINAL.

The American Farmer the Best in the World.

The American farmer is the greatest man in the world to-day because he is master of the soil—he is gaining in intelligence quite as rapidly as his products are increasing in magnitude. Our recent combines of capital in United States measured in money are enormous, yet such figures sink into insignificance when compared to the money, brain and brawn invested in agricultural industries. For instance, the farmers of Minnesota and Dakota have received $300,000,000 for their products in a single year. The farmer knows what Nature will bring forth for him from his experience in the past. He knows if certain seeds are planted and properly cared for that Nature will take care of the rest. In the same way *you are master of your own destiny.*

Providing your blood is in good order, it only needs a little effort on your own part to keep healthy and strong—rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Dr. Pierce's Golden Medical Discovery makes rich red blood—by increasing the number of red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. As an alterative extract, made only of herbs and roots it goes about its work in nature's way. It stimulates the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood. Used for over a third of a century it has sold more largely than any other blood medicine in the United States. More bottles of Dr. Pierce's Golden Medical Discovery are sold to-day than ever before—that is a true test of its medicinal value after thirty-eight years of deserved popularity.

Dr. Pierce's "Medical Adviser" sent on receipt of stamps to pay for mailing *only.* Send 21 one-cent stamps for book in paper covers, or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

Increased Pay for Congressmen.

It is stated that a number of members of Congress will undertake at the first session of the Fifty-ninth Congress to raise their salaries from $5,000 to $10,000 a year. The plea for doubling their pay is the claim that a nember of Congress cannot live on $5,000 a year in Washington. In order to gain support the gentlemen who are "promoting" the plan intend to include the President in the measure. His salary, too, is to be doubled—from $50,000 to $100,000 a year—and the vice president is to get $20,000. There are still many persons who remember the notorious "Back-salary" law in the days of President Grant. The members of the Forty-second Congress decided that the country was not properly appreciating their services, and at the short term of that Congress they passed a bill raising their salaries from $5,000 to $7,500. The salary of the President was raised from $25,000 to $50,000. The bill, as first introduced, did not include the members of the Congress that was to enact it, but a number of "dead ducks" who had been defeated for re-election held the measure up until it was made retroactive not only for the session at which it was passed, but even back for the first session, which had already expired. Objectionable as was the bill to most people, it became a law. Many members of Congress, knowing the disgust which the back-pay grab had aroused all over the country, wisely turned back into the Treasury the extra $5,000 accruing from the two terms. Others bodly pocketed it; few, if any of them, remained long in public life thereafter. The next Congress promptly repealed the bill as far as it increased their own salaries but, under the Constitution, they could not, of course, decrease the salary of the President during his term.

The gentlemen who may undertake the delicate business this time have taken counsel of experience. The bill will provide that the Congress which enacts the law shall not benefit by it. Thus, if the next Congress shall raise all salaries by doubling them, the increase shall not go into effect until the following Congress, that is to say, March 4, 1907.

To men who must manage to live on $1,000 a year, of whom there are many, the proposition that the average member of Congress is not paid sufficiently with $5,000 may seem grotesque. It is quite true that many members spend more than $5,000 a year. But it is equally true that many live comfortably within their salaries.

Their names do not shine daily in the society columns of the papers, but their time is devoted mostly to working for their constituents rather than to giving brilliant social functions. There is little reason to doubt that the bill to double salaries will easily pass Congress, because there is a strong element of human nature in even the statesmen who comprise that body.

Constitution Impracticable.

Prince Mestchersky, editor of the Petersburg Grashdanin and the foremost spokesman of the autocracy, holds that the inauguration of such reforms as are at present possible in Russia has been actually prejudiced by "the irresponsible agitation for a constitution which is now in progress." Autocracy he considers vital to the life and future greatness of Russia as a nation. Liberal reforms, he maintains, are necessary, but they cannot be introduced except by the autocracy. Moreover, declares the Prince, a broad plan of reform was already mapped out for gradual introduction, when the whole work was thrown into confusion by the liberal rebound, accompanied by a discussion of a constitution, which followed Minister von Plehve's death. Speaking of the matter Prince Mestchersky said: "A constitution is just as necessary to Great Britain or the United States as autocracy is for Russia. Russia without autocracy would cease to be Russia."

Collapse of a Gallery.

A score of boys and young men were hurt by the giving way of a gallery railing in the State Fencibles' Armory in Philadelphia last night during the progress of a basketball game. None of the injured, who were removed to a hospital near by, is fatally hurt. There were about 200 spectators in the armory at the time. During the game a fight started between two players, and the spectators in the gallery pressed forward to see the disturbance. Without warning two-thirds of the railing gave way, and about 50 persons fell to the floor below. It was at first thought that some of the spectators were killed, but the hospital physicians say that all will recover.

Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner, of Dempseytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at E. S. Leadbeater & Sons' Drug Store

Only Makes a Bad Matter Worse.

Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effects, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

A Good Complexion.

"Sparkling eyes and rosy cheeks restored by using DeWitt's Little Early Risers," so writes S. P. Moore, of Nacogdoches, Tex. A certain cure for biliousness, constipation, etc. Small pill—easy to take—easy to act. Sold by all druggists.

Catarrh and Hay Fever.

Liquid Cream Balm is becoming quite as popular in many localities as Ely's Cream Balm solid. It is prepared for use in atomizers, and is highly prized by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medicinal properties of the celebrated Cream Balm are contained in the Liquid form, which is 75 cts. including a spraying tube. All druggists, or by mail. SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, NOV. 30, 1904

RUSSIA is endeavoring to bring about a more satisfactory condition of affairs for Jewish citizens, many of whom have grown tired of the rigid rules to which they are subjected in that empire, and left for other climes. The announcement is made that the zone in which Jews can buy real estate in Russia is to be extended. Eighty political exiles at Archangel have already been brought back by Interior Minister Sviatopolk-Mirsky. About 580 still remain there. The exodus of Jews from the old world has in recent years assumed large proportions. Herr Gludestadt, a well-known banker of Copenhagen, and other prominent Jews have formed an organization to assist the Russian Jews in emigrating to America through Danish ports. Funds are being collected to facilitate their passage and give the emigrants a start in life on their arrival at their destination. It is estimated that fully 10,000 of these emigrants left Denmark during the present year. The traffic is becoming so large at Scandinavian ports that the Hamburg-American Steamship Company is arranging a new service to Copenhagen, Gothenburg, Christiana and the western coast of Norway supplementary to its regular service to America.

THE PRESIDENT believes that some readjustment of the Dingley tariff schedules by the 59th Congress would benefit the country. This is his opinion, and he has frankly expressed it to those who asked him his views on the subject of the tariff. That he held this opinion has been frequently announced, but now it is stated that the President had no intention of disrupting his party or of appearing to dictate to Congress. Why, of course not! It may be added that there is no occasion to fear that he will endeavor to force tariff revision on the country irrespective of the views of other leaders of the republican party and this on no less authority than the New York Tribune, the republican party's organ.

AN AFTERMATH of the late election is the barefaced proposition to increase the salary of Congressmen from $5,000 to $10,000 a year. In order to make the movement popular in another quarter, it is proposed by the originators of this latest salary grab to increase the pay of the President from $50,000 to $100,000. Some Congressmen say they fail to live in Washington on their present salaries. There is every reason to suppose that the suggestion will crystalize into a determined purpose, and that another burden will be placed upon the shoulders of a long-suffering and tax-ridden people.

MORE than six thousand immigrants from European ports arrived in New York one day last week. The rush from Europe to this country is just now of proportions which should cause considerable study. Many of the immigrants are the offscourings of the countries from which they leave and are admitted to the United States without let or hinderance, whereas the thrifty and industrious Chinese who would assist in tilling the soil of the south are excluded under the immigration laws of the land.

ANOTHER bank has been wrecked because the directors did not direct. An Oberlin, Ohio, bank has been closed on account of the amount of money lost in loans to a Mrs. Chadwick. The loans were made by the president and cashier without the action of the board of directors, who knew nothing of their amount, but probably did know that instead of paying attention to the bank's business they were leaving it to the two officers.

IT IS published that Mr. Cannon, on his arrival in Washington yesterday, when asked what he thought of the election, said: "I am so ding-banged elated that I have had to keep toe weights on me ever since I heard the returns." All of which is most undignified for a Speaker of the United States House of Representatives—or would have been in by-gone years.

ANDREW S. DRAPER, State Superintendent of the Massachusettes public schools, in discussing athletics in schools, declared that football should be purged and saved from its present attendant evils. If something of this kind is not done soon the State laws concerning prize fighting will have to be applied to football players.

Another note of alarm is sounded by Brig. Gen. Story in his annual report as Chief of Artillery in regard to the unpreparedness of the country for war, especially in so far as the coast defenses are concerned. In summing up a review of the situation he says: "We have not one half of the trained personnel to man the armament already mounted. At no post have we a complete installation of the approved position-finding equipment and accessories which is absolutely required to obtain the most effective work from the guns. We are far from having a sufficient submarine-mining equipment for either home or insular harbor defence, and practically we have no instructed personnel for its care and operation." In the matter of field artillery he declares: "The field artillery is not tactically sufficient for the cavalry and infantry of our permanent establishment; it has not a proper organization; also, provision is not made for sufficient officers in the different grades even for the present force."

The fate of United States Senator Joseph Ralph Burton depends upon the outcome of the case which is today being argued in the U. S. Supreme Court. Senator Burton himself realizes his position. His demeanor has undergone a change. He continues to assert his innocence and professes confidence in a decision favorable to his interests. Burton, who has been found guilty of accepting pay from the Rialto Grain and Investment Company of Kansas City as payment for services rendered to prevent the issue against them of a fraud order by the Postoffice Department, was sentenced to imprisonment. The government asks that the sentence of the court below be approved.

Senator Cockrell, of Missouri, called at the White House this morning and had a talk with the President over the offer of a position on either the Panama Canal Commission or the Interstate Commerce Commission. After the conference the Senator said that he had not yet decided which he would accept. He might not make up his mind for several weeks. He would still be a Senator until the fourth of next March and there was no occasion for hurry. It is understood that he prefers the Panama job provided he would not have to spend too much of his time on the Isthmus.

At the close of this morning's session of the Merchant Marine Commission, appointed in the last session of Congress, Chairman Gallinger gave out a statement commenting favorable on the British plan of a government bounty to seamen and firemen in the merchant marine, and indicating that some such scheme would be recommended by the commission for the American merchant marine.

The President's annual message to Congress will not be delivered this year until Tuesday next, December 6, the second day of the session. Usually, when nothing interferes, the message is read from the clerks' desks of the two houses immediately after Congress convenes on the opening day. The deaths of Senators Hoar and Quay, which occurred in the recess, will cause the postponement for a day. Immediately after the Senate convenes, Senator Lodge, of Massachusetts, and Senator Penrose, of Pennsylvania, will inform the Senate of the deaths of their colleagues, and will move that suitable resolutions be passed by the body, "and a further mark of respect, the Senate do now adjourn." The motion will be adopted without dissent, and as a presidental message is never presented unless both Houses of Congress are in session, its reading will be delayed until the following day. In the entire membership of the House, 382, there has not occurred a single death, so that no announcement will be made in the lower chamber similar to that made in the Senate. It is probable, however, that the House will also adjourn out of respect to the memory of Senators Hoar and Quay.

Chairman Cortelyou, of the republican national committee, this afternoon announced the appointment of Gen. John M. Wilson, U. S. A., retired, as chairman of the inaugural committee. In this capacity Gen. Wilson will have charge of all the arrangements in connection with the inaugural parade, ball and other ceremonies incident to the installation of President Roosevelt.

Wilbur F. Crafts, who for several years has conducted in this city the International Reform Bureau, which he calls the "Christian Lobby," has issued a statement on the proposed activities of his bureau in the coming session of Congress. He says: "Numerous bills for the repression of intemperance, gambling, impurity and Sabbath breaking that were introduced in the last session of Congress are still pending and it is anticipated that some of them will be earnestly contested in the short session."

Postmaster General Wynne, today signed an order removing from service William C. R. Hazard, special agent of New York, special agent in charge of the eastern division of the rural free delivery, against whom charges were filed a month ago upon which Fourth Assistant Bristow recommended a removal. While the allegations do not relate to dishonest dealing in office, General Bristow said today he was unwilling to discuss the nature of the case.

It is announced at the Navy Department that the President will offer to Rear Admiral Charles H. Davis U. S. N., membership on the International Court of Inquiry which will investigate the firing by the Russian Baltic fleet upon British fishing smacks in the North Sea. The appointment is made in compliance with the invitations extended by Great Britain and Russia. Admiral Davis is a brother-in-law of Senator Lodge of Massachusettes. He is a fluent French scholar and is considered to be one of the best authorities in the navy on international law. Admiral Davis's present assignment is that of divisional commander of the battleship fleet flagship Alabama at League Island, Philadelphia.

Under a rigid examination by Mr. Shearn, counsel for the complainant in the anthracite coal hearing before the Interstate Commerce Commission, M. P. Blouvelt, comptroller of the Erie Railroad, this morning delivered a detailed exposition of the company's finances for the past four years, with special reference to gross and net earnings of the coal business. He admitted that during the period discussed, the gross earnings had displayed an increase of many millions of dollars based on enlarged volume of business, and since the cost of operation was increased only by additional train expenses the net earnings had been even greater in proportion.

The War Department today finally settled the case of Private John Smith, of the hospital corps of the army, who was recommended by his immediate superior officer at station Fort Mott, New Jersey is discharged from the army, because he had married a negress. The case has been pending in the War Department since the middle of October. While the War Department has ordered the discharge of private Smith, according to this official statement given out today it was not due to his marriage to a negro woman. The question of her race is evaded by the War Department. The department sets forth that it appears that Private Smith married a woman of bad character whose previous marriage is not terminated by the death of her husband or by any form of legal separation.

At San Francisco last night "Battling" Nelson, of Chicago, won from "Young Corbett," of Denver, in a ten round fight.

The "stand patters" in Congress it is said rather than sanction a lower tariff probably will favor a reduction of appropriations.

Should there be any stockholders who prefer their dividend in cash it will be so paid to them.

SEVERE FIGHTING

The severe fighting the past three days at Port Arthur has resulted in the Japanese capturing the crests and counterscarps and the Russian shelter trenches near the summit of the Sungshu Mountain forts. To finally take the works will necessitate a desperate, deadly charge.

The Japanese have secured strong positions at Rihlung and Keekwan Mountains. After five hours' fierce fighting and several repulses the Japs drove the Russians out of the trenches guarding the approach to the southeast Keekwan forts.

The Russian War Office claims to have information that Field Marshal Oyama has drawn largely from his Manchurian army to reinforce the Japanese besiegers at Port Arthur. The Japanese strength below Mukden is now estimated at 150,000 men, against General Kuropatkin's 300,000.

Desultory fighting continues near Da Pass, the Japanese making repeated attempts at a turning movement. The Russians buried 280 Japanese dead at Tsinkhetchen.

A Japanese cavalryman captured by the Russians says General Kuroki is alive.

According to information which has reached the War Office in St. Petersburg, Field Marshal Oyama's strength is much smaller than heretofore believed, tending to confirm the theory that a large force has been withdrawn to assist in storming Port Arthur. This information is to the effect that not much more than 150,000 men are now confronting General Kuropatkin, but the Japanese lines are heavily fortified in order to check any aggressive movement which Kuropatkin might undertake long enough to enable the Japanese to hurry up reinforcements by rail from the peninsula. The present activity of the Japanese along the front, these reports indicate, is only feigning to convince Kuropatkin that the offensive is imminent. Should this important intelligence be absolutely confirmed, it is possible that the Russian commander-in-chief may himself attempt to strike a quick blow. Kuropatkin is now supposed to have nearly 300,000 men.

Death of Mme. Janauschek.

Mme. Janauschek, the actress, died yesterday in the Brunswick Home, at Amityville, L. I., where, for the past four months, she had been a private patient as a charge of the actors' fund. Prior to going to Amityville, Mme. Janauschek had been a guest of the actors' home, on Staten Island. She had been gradually sinking for months. Paralysis and a general debility were the immediate causes of death. She was seventy-four years old, having been born in Prague, Bohemia, in 1830. In 1867 she came to the United States and played Medea and other roles in German, and later made a success in tragic roles in English. She essayed such parts as Deborah, Blanca, Mary Stuart, Queen Elizabeth, Lady Macbeth, and Meg Merrilles. Mme. Janauschek had not played regularly for several years, although until seven or eight years ago she would return to the stage for brief seasons.

Outcome of Miners' Turmoils.

As was stated in the Gazette, Zeigler, Illinois, was fired upon Monday night from sundown to daylight. It is estimated that no less that 500 shots were fired at the town. The four Gatling guns belonging to the coal company were turned on in full force in the direction from which the shots came. The town was completely surrounded, and the firing came from every quarter.

Assistant Adjt. Gen. Reece and the Carbondale militia company arrived in Zeigler yesterday, and Gen. Reece will remain several days to investigate the situation. It is thought that still more troops will be brought. A representative of Joseph Leiter reached Zeigler yesterday with more miners from Chicago.

Examination of the ground yesterday morning showed that the men who were firing have powerful guns. They were stationed from one-half to three-quarters of a mile from the town. Almost a bushel of empty shells of every size and make were found in the woods. A trail of blood was found on a rail fence, and from this it is supposed that at least one person was wounded. Further trouble is anticipated.

While martial law has not been declared at Zeigler, the situation closely approaches it. No one not properly vouched for can enter the town. The entire Leiter tract of land, containing 8,000 acres, is to be put under military surveillance. The position taken by the Franklin county officials is generally approved.

All persons, including newspaper men, are barred from the stockades at Zeigler.

No one but Joseph Leiter, it is said, can issue permits passing any one through the lines.

Election Expenses.

The candidates for Congress in the recent election, and especially the successful candidates, have in many cases complied with the law by forwarding to the Secretary of the Commonwealth a sworn statement of their expenses incurred in their campaign, as required by recently enacted statute. The penalty for failure to file such an expense account with the secretary by the candidates within 30 days after election, makes them liable to a fine of $1,000, and in the case of men elected to office, the certificate of election is to be withheld until the law is complied with.

Here are some of the returns made by candidates: Congressman Slemp, $118.29, for traveling expenses; Congressman Carter Glass, $187.95, for postage and printing and traveling expenses: Congressman James Hay, $241.16, for barbecue, band, livery and printing; Congressman Claude A. Swanson, $1,565, for postage, rent of halls, barbecues, traveling expenses and incidentals; Congressman H. L. Maynard, $18, traveling expenses and hotel bills; Congressman R. G. Southall, $53, railroad fare, livery and hotels; Congressman John Lamb, $130.75, for hall rent, printing and postage.

Of the unsuccessful candidates: Mr. R. M. Hughes, expended $10 for printing; Mr. C. M. Keezel, $146.38, livery, railway fare, printing, postage, etc.; Mr. John Catrell, socialist, spent nothing; Edgar Allan jr., $220.42, for hall rent, newspaper advertising, postage, meals, railway fare, etc.

Congressman Jones and Rixey have not yet sent in their statements, or they have not yet been received.

FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

Today's Telegraphic News

Another Unconfirmed Report.

London, Nov. 30.—A rumor is current on the Stock Exchange this morning that Port Arthur has fallen. The rumor is not confirmed. Some color is given the report by dispatches received by the French morning papers, which state that dominating positions at the Russian stronghold have been taken by the Japanese.

Rome, Nov. 30.—A dispatch to the Giornal from Tokio says that the fall of forts Sungshan and Kikwan is expected today. Russian prisoners declare that General Stoessel, in command at Port Arthur, is anxious that the Port should not be taken by assault, but definite orders have been received by him from St. Petersburg to refuse all suggestions that his forces capitulate. All is now ready, the dispatch continues, for a retreat of the Russian combatants to Lino Tishan and Liger Taile forts immediately on the fall of Sungshan and Kikwan. The noncombatants will be left behind and will be compelled to throw themselves on the generosity of the Japanese. The dispatch adds that for two days past fires have been raging at various points in the town, which has been like a furnace.

Chefoo, Nov. 30.—Word reached here this morning of desperate fighting at Port Arthur yesterday. The Japanese made a determined assault on the eastern defences. The loss on building and stock suffered by the Coventry & Evans Company will exceed $100,000. Adjoining property was damaged to the extent of over $30,000. The flames started in the cellar of the Coventry & Evans building, presumably from the furnace, and within half an hour, the whole structure was ablaze. Early this morning the mansion of Harry Crouse, on upper Genessee street, was gutted by fire. The loss will reach $40,000. The Crouse family is out of the city, and incendiarism is hinted at.

Orvis seized the deer by the horns and threw it to the ground, where he held it until his wife got out of danger behind a tree. Then Mr. Ovis followed suit and got clear of the deer before it could get at him. Mr. Ovis, with his wife, was walking through the park, when the deer attacked him. A grip that Mr. Orvis carried was ripped by the animal's horns. Mr. Orvis sustained only a few bruises.

Japenese Diet.

A Fatal Experiment.

Madrid, Nov. 30.—An Andalusian painter named Salsillo was commissioned a short time ago to paint a Mater Doloroso, but, notwithstanding repeated efforts, he failed to secure the right expression. The Boycott Illegal.

The complete text of the recent opinion of Judge Hebbard, of the Superior Court of California, holding that boycotted employers are justified in using violence for their own protection, is scathing in its denunciation of the methods of labor unions in declaring certain persons or firms "unfair" simply because they refuse to accede to the demands of the unionists. The pith of Judge Hebbard's opinion is contained in the following paragraphs:

"To proclam a business, or the proprietors thereof 'unfair,' in this manner, is as infamous as to proclaim before a private dwelling that the inmates thereof are prostitutes.

"The acts complained of are breaches of the peace, and it is safe to say that if met by personal violence on the part of the one boycotted, did he so elect, instead of appealing to the law, he would be justified by a jury under his constitutional right of self-defense.

"It is the opinion of the Court that no man or woman, nor any number of either, may promenade before the place of business of the plaintiff, or any other person, bearing any sign, placard, transparency or written or printed notice of any kind whatever, reflecting on the honesty, or integrity, or fairness of the business itself or the proprietors thereof."

The opinion was delivered in the suit of Goldberg, Bowen & Co., against the Stablemen's Union, Local No 8760, of San Francisco. The complaint, which had been filed for the Citizens' Alliance, was demurred to by council for the union, and this demurrer Judge Hebbard overrules.

The complainant charged that the defendants had entered into a conspiracy to coerce the plaintiff company to subject the control of its business to the Stablemen's Union and that in pursuance of this conspiracy the defendants had declared a boycott against the company and stationed pickets carrying signs reading "Unfair firm; don't patronize," in front of its place of business.

Citizens' Industrial Association.

Members of the Citizens' Industrial Association, representing all sections of the country, were present when the second annual convention of the organization opened in the new Hotel Astor in New York yesterday. The plans for the session included a number of formal additions to the appointment of committees and other preliminary work of a like nature. It is the aim of the convention to bring about a complete organization of manufacturers, business men and all large employers of labor to advocate the "openshop" idea. All employers not affiliated with the association were invited to attend the convention and listen to discussions on the issues of the open or closed shop, restriction of output, limitation of apprentices and other questions of a similar nature. The annual address by President David M. Perry was listened to with close attention. Among other things he said that during the last year one thousand manufacturers have declared in favor of the "open shop" policy.

The Farming Industry.

Figures bigger than those handled in a Treasury report for the prospectus of a "get-rich-quick" scheme are those in the annual report of James Wilson, Secretary of Agriculture.

After showing that the products of the United States farms in one year are worth $4,900,000,000, Secretary Wilson states that the hens of the United States lay 1,666,000,000 dozens of eggs a year, a total of about 20,000,000,000 eggs, or enough in one month to pay the interest of the entire national debt of the United States for one year.

Although the egg crop has been valuable, it does not compare with the corn crop, which ranks first, and would pay off the national debt and the interest thereon for a year.

Secretary Wilson makes a few comparisons. He says that all the gold mines of the entire world have not produced since Columbus discovered America greater value of gold than have the farmers of this country in two years.

Bank Under Debts of the 400.

When Mrs. L. B. Morris, leading milliner of Richmond, went into bankruptcy yesterday afternoon there was a thrill of horror among the 400 and the next few days husbands and fathers will receive heavy bills for hats that they did not know had been purchased and charged to them. A schedule of the assets of Mrs. Morris was filed in the United States Court and the list of those owing her money might be used as a social register with a few amendments. The conclusion that the purchases were made without the knowledge of heads of families is irresistible because of the fact that in the list of debtors are the names of many who never allow those who sell to them to wait unduly for their money and the milliner has been made to wait an almost indefinite time.

Fire in a Church.

Hannah Lee, a domestic at the residence of Judge J. K. M. Norton, shortly before seven o'clock last night had her attention attracted by smoke which was emerging from the belfry at the base of the steeple on the northwestern corner of the Baptist Church building, on south Washington street. A blaze subsequently appeared when a telephone message from Judge Norton's residence caused a fire alarm to be sounded. A light rain was falling at the time and occasionally heavy flaws of wind came from the south. These conditions did not prevent the assembling of a large crowd. The fire department lost no time in appearing upon the scene, but while getting to work a conflict of authority ensued between the firemen and some persons interested in the church. The issue arose as to the practicability of throwing water into the church—or certain parts of the church. The department soon went to work, however, in earnest and were not long in subduing the flames and preventing what might have proven a disastrous conflagration, not only in the destruction of the church building but of other structures which would probably have been set on fire by embers sent flying through the air by the wind. As stated above, the fire originated mysteriously in the belfry and burned downward through the flooring and into the choir area at the western end of the gallery, where the wainscoting was damaged. Fortunately the organ escaped injury. The damage by fire and water, (the latter necessarily falling into a portion of the auditorium) will probably reach $1,000. The building is insured for $8,000. The damages will be repaired as soon as possible. In the meantime services will be held in the lecture room of the church. Trinity Methodist and the M. E. Church South were kindly tendered to the Baptists should they desire to use either. James Taylor, the sexton, says that when he left the church at 5 o'clock yesterday evening there was no fire in the building.

Knights of Pythias.

A very interesting meeting of Oriental Lodge, No. 6, Knights of Pythias, was held last night in their castle hall on north Pitt street. After the regular routine of business had been disposed of remarks under good of the order were made by Past Grand Prelate W. H. May, P. G. R., Ernest R. Boyer and P. C. T. L. Carlin. At a meeting of the Supreme Lodge of the World, a jewel of honor, known as a Pythian Veteran's Jewel, was adopted. This jewel is to be worn only by Pythians who have held membership in the order for twenty-five consecutive years. Past Grand Representative E. R. Boyer, who is recognized both by the local lodges and the grand lodge as a Pythian orator, in his usual happy and pleasing manner, on behalf of several members of the order, presented P. C. M. R. Norris with a beautiful Gold Veteran's Jewel. P. C., Norris, who is the only Pythian in the city eligible to receive the honor, responded to the gift in a neat and appropriate speech.

The Christmas Season.

Alexandria merchants are now receiving supplies of holiday goods. Numbers of original creations will be displayed in the various departments, many of which are sure to attract. Some of the mechanical toys, for instance, will prove interesting to purchasers of Christmas articles, while the display of jewelry and the higher order of holiday goods will be lavish. Bakers, confectioners and others will exercise their skill in producing the best and most inviting displays. Some people in business have long since realized that Christmas without advertising their productions is Hamlet without Hamlet. Others, however, plod along in the rear without utilizing printers' ink.

Cars Robbed.

Several freight cars were broken open and robbed of part of their contents on the Portner side track, a short distance this side of St. Asaph Junction, last night. The train had been placed on the branch track in order to allow a passenger train to pass, and, it is said, did not remain on the siding over ten minutes. The thieves were on the lookout and evidently by the time the wheels had ceased to revolve were at work. Champagne, small cans of molasses, soap, &c., were among the articles stolen, while some were scattered alongside the track.

A Dangerous Custom.

The chronic complaint against persons who cast banana skins in the streets or on vitrified brick roadways is again becoming loud. A lady and gentleman who accidentally stepped upon these menaces to life and limb were thrown to the pavement on King street yesterday, but fortunately escaped serious injury. People who drop banana rinds or those of oranges or other fruit on the street are guilty of misdemeanors, and an example must sooner or later be made of the offenders.

Personal

Mr. James Beach is ill at his residence on south Fairfax street.

Mr. Warren P. Taylor, of Richmond, traffic manager of the Washington-Southern Railway Company, was in the city today on a short visit to friends.

Messrs. Charles Oehlert and Arthur Smith left today for Richmond, they having secured employment at Cameron & Tenant's machine shops in that city.

Another Cold Wave Coming.

The cold wave which settled over this vicinity Saturday night was followed by milder conditions and light rain last night. The mercury in the thermometer today had reached 61°. Two days ago it was down to 30°. The Weather Bureau announces that an arctic wave is in transitu, and that the mercury will be down to 26° by tomorrow.

River Notes.

Steamers arriving from the lower river report that the fourth buoy marking the main ship channel through the Kettle Bottom shoals is broken off close to the edge of the water and in such a way as to be dangerous to navigation. The buoy is one of the channel marks through one of the most difficult parts of the Potomac.

The sand and gravel-digging machine of the Potomac Dredging Company, which was built at this place last summer, is now located in Piscataway creek, above Fort Washington, and is taking sand and gravel from the bottom of that stream for use in Washington. It is stated that during the coming winter the Potomac Company will have another and a larger digging machine built for use on the river. The tug George W. Pride owned by Capt. A. J. Fair, of this city, is now towing the barges.

A large lighter built for a coal firm in Washington has been launched at the shipyard. Another scow for the same parties is still on the stocks and will be launched shortly.

A pile-driving machine of Carter & Clark of Washington was taken into Gravelly creek, on the Virginia side of the river below Jackson City, Monday afternoon for the purpose, it is stated, of building a trestle over the creek for the new tracks of the Washington-Southern railway between Washington and Alexandria.

Officers Suspended.

Mayor Paff this afternoon summoned Officers John T. Roberts and William Mayhugh before him and read the charges which had been preferred against them by Chief Webster of improper conduct while in the discharge of their duty. He informed the accused that it was their privilege to employ counsel and have an investigation of the charges should they deem such a course proper. The two officers, however, acknowledged the truth of the charges urged against them, Mayor Paff then said the accused had imposed a hardship upon him, and that it would be his duty to take immediate steps in the matter. He therefore suspended both for a term of thirty days, observing that it was in the province of the Police Board to further investigate the matter should the members deem proper.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

A white man, an old offender, arrested by Officer Henderson for being drunk on the street, was released upon promising to leave the city at once.

Robert Jackson, Virginia Nelson and Reuben Lewis, all colored, arrested by Officers Lyles and Beach, charged with improper conduct, were fined $2.50 each.

A white man, arrested by Officers Smith and Sherwood for being drunk in the street, was dismissed.

Andrew Whiting, colored, charged with stealing liquor from a restaurant, had his case continued.

Patrick O'Neal, charged with stealing comforts from a dry goods store on King street, was fined $5.

Corporation Court.

[Judge L. C. Barley presiding.]

S. H. Lunt, administrator, vs. Margaret E O'Neal; decree confirming sale and referring case to E. B. Taylor, commissioner, for report.

W. W. McNair vs Mary Baker et al.; decree making J. K. M. Norton party to suit and directing process to issue requiring all persons who purchased lots under a former decree to report in Court on Friday morning.

Samuel I. Strother vs. S. B. Fisher; debt; argued and submitted.

A rule was issued against J. M Garvey to show cause why his liquor license should not be revoked.

Funeral.

The funeral of the late Grover C. Goodrich took place this afternoon from the residence, corner of Duke and Fairfax streets, and was attended by a number of friends and acquaintances of the family. The pallbearers were Messrs. George W. Ward, R. L Wright, James McLaughlin, Earl Lynn, Frank Glasgow and Roger Sullivan, all members of the Methodist Protestant Sunday school, with which the deceased had long been associated. Rev. Mr. Ewell conducted the services.

Upset Bid.

In the Corporation Court today Judge J. K. M. Norton made an upset bid for the old Peyton's Grove property at the head of King street, recently sold under a decree of the court in the case of McNair vs. Baker. The property, it will be remembered, was sold in lots, a number of persons being purchasers. These parties are summoned to appear in court on Friday.

Accident to a Lady.

Mrs. Marshall Carr, living on north Washington street, in descending a staircase this morning made a misstep and fell, breaking one of her ankles. Dr. Gorman was summoned and rendered the necessary surgical assistance.

Resigned.

Mr. Charles E. Kell, who for several years past has been assistant marketmaster, has resigned and accepted mechanical employment in Washington. Mr. Andrew Sullivan, jr., has been appointed to the position by Marketmaster Lyles.

Supper.

The ladies of Immanuel Lutheran Church will give an oyster supper at Odd Fellows' Hall tonight and tomorrow night. A pleasant evening is promised to those who attend.

An Anchor to Windward.

A great merchant who began in a small way says of his advertising: "I found early that it was not merely a question of immediate results. The establishment which believes in its own future must 'cast an anchor to windward.' The future as well as the present must be taken into account."

A Heavy Load.

To lift that load off the stomach take Kodol Dyspepsia Cure. It digests what you eat. I take great pleasure in expressing the sentiments of the board of trustees and members of the First Baptist Church and hereby tender our heartfelt thanks and grateful appreciation to the Chief, membership of the various companies composing the Fire Department and kind hearted citizens of our city for their timely arrival, untiring exertions and the expeditious manner in which they subdued the fire at our church last evening.

We also thank our sister churches for their generous invitation to hold services and meetings at their sanctuaries pending repairs necessitated by the fire. Respectfully,

Tailor Choked to Death.

John Haas, a Chicago tailor, was hungry on Monday, and he cooked a big steak for himself, and being alone in his apartments he proceeded to make a silent meal of it. In a little while a colored man passed that way, and at the window of Haas' shop he saw a man acting wildly. He was rolling his eyes, gesticulating and making contortions. The colored man was frightened and went his way, later reporting the case to a policeman. When the policeman investigated he found Haas dead upon the floor, and reported a case of apoplexy. Yesterday Coroner's Physician Springer found that the tailor had choked to death on a strip of meat four inches long and two inches wide.

The Boycott Illegal.

The complete text of the recent opinion or Judge Hebbard, of the Superior Court of California, holding that boycotted employers are justified in using violence for their own protection, is scathing in its denunciation of the methods of labor unions in declaring certain persons or firms "unfair" simply because they refuse to accede to the demands of the unionists. The pith of Judge Hebbard's opinion is contained in the following paragraphs:

Quick Arrest.

J. A. Gulledge, of Verbena, Ala., was twice in the hospital from a severe case of piles, causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at E. S. Leadbeater & Sons, Druggists.

Chronic Diarrhœa Cured.

Mr. Walter Richardson, of Troutville, Va., had an attack of diarrhœa that came near ending his life. His physician had failed to relieve him and the disease had become chronic when he began using Chamberlain's Colic, Cholera and Diarrhœa Remedy. It soon cured him and he now recommends that preparation whenever an opportunity offers. For sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

FOR OVER SIXTY YEARS

An Old and Well-Tried Remedy.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Mothers Praise It.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. A certain cure for coughs, croup and whooping cough. A. L. Spafford, postmaster of Chester, Mich., says: "Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. One Minute Cough Cure quickly relieved and cured her and I cannot praise it too highly." One minute Cough Cure relieves coughs, makes breathing easy, cuts out phlegm, draws out inflammation, and removes every cause of a cough and strain on lungs. Sold by all druggists.
